Location: Cairo, Egypt (Remote / Global)

CORE ENGINEERING & CREATIVE COMPETENCIES

FULL-STACK DESIGN-TO-CODE

FRONT-END & FRAMEWORKS

Next.js 14/15, Astro, React, TypeScript, Tailwind CSS, Vanilla CSS3, Semantic HTML5.

EDGE ARCHITECTURE

Cloudflare Workers/Pages, Static Site Gen (SSG), Bi-directional RTL/LTR, Zero CLS, Core Web Vitals.

DESIGN SYSTEMS

Figma (Tokens, Variables, Components), Adobe Illustrator, Photoshop, Motion Graphics.

GENERATIVE AI PIPELINES

Runway Gen-3, Midjourney v6, Flux.1, Luma AI, ElevenLabs, Consistent LoRA Workflows.

FLAGSHIP LIVE WEB PLATFORMS & ARCHITECTURES

PRODUCTION EVIDENCE

D-Arrow Investment Platform

Next.js • TypeScript

Architected the full platform from scratch with bidirectional RTL/LTR support, dynamic investment ROI calculators, and a custom 120-token Figma design system.

EXECUTIVE PROFILE & ENGINEERING PHILOSOPHY

The Creative Technologist Advantage: Eliminating the friction between design vision and technical execution. I write clean, performant TypeScript code while simultaneously designing high-craft visual interfaces in Figma. Specializing in high-performance web platforms, Arabic/English bilingual architectures, and production-grade generative AI automation.

Emirates Real Estate (إمارات العقارية) AI Commercial

Runway Gen-3 • Midjourney v6

Directed and synthesized a luxury architectural television commercial without live filming sets. Engineered consistent character rendering across dynamic camera trajectories, integrated neural voice synthesis via ElevenLabs, and mastered full spatial audio.

DESIGN-TO-CODE ENGINEERING & PRODUCTION METHODOLOGY

- 1. **Tokenized Figma Architecture:** Designing with unified tokens for spacing, typography, colors, and responsive layout grids.
- 2. **Zero-Loss Code Synthesis:** Translating design tokens into modular Next.js / Astro components with strict TypeScript types.
- 3. **Bilingual RTL Native:** Solving font-metric offsets, text truncation, and bidirectional flexbox/grid alignments flawlessly.
- 4. **AI Augmentation:** Leveraging custom diffusion workflows for rapid concept validation and dynamic content generation.

Arkan Contracting & Investment Corporate System

Corporate Identity & Web

Created the entire luxury corporate brand language and digital project showcase for Arkan — featuring interactive project filtering, technical specifications modals, and high-ticket inquiry routing.

PROFESSIONAL WORK EXPERIENCE & LEADERSHIP

CHRONOLOGICAL HISTORY

Principal Creative Technologist & Founder

2022 – Present

OmarCreatives | Cairo, Egypt & Remote

- Delivered 20+ bespoke digital web platforms and AI-augmented media systems for enterprises and tech founders across Saudi Arabia, UAE, and Egypt.
- Spearheaded performance optimization workflows, consistently elevating client Lighthouse scores to 95+ and reducing page load times by over 65%.
- Built automated asset delivery pipelines combining generative AI diffusion and custom script automation.

Lead UI/UX Engineer & Digital Designer

2024 – 2026

D-Arrow Marketing & Investment | Full-Stack & Brand Lead

- Engineered the core company platform in Next.js 14 with TypeScript, designing the multi-lingual UI/UX in Figma from concept to production deployment.
- Developed customized interactive financial calculators and an influencer management portal.

Senior Visual Designer & Multimedia Producer

2019 – 2022

Freelance & Agency Contracts | Commercial Branding

- Designed and executed 100+ commercial advertising creatives, packaging systems, and digital campaigns for regional FMCG and fashion brands (Falez, Seropipe, Souqoom, Romwear).

Ready for High-Impact Collaboration?

Available for Senior Creative Developer roles, Lead UI/UX Engineering, and Enterprise Consulting.
