WORK EXPERIENCE & LEADERSHIP

Principal Creative Technologist & Founder | Omar Creatives

2022 – Present | Cairo / Remote

High-Craft Web Engineering, Brand Systems & AI Production

- Partnered with 20+ regional businesses, tech startups, and NGOs across Saudi Arabia, UAE, and Egypt to design and deploy bespoke digital platforms.
- Standardized modern Design-to-Code delivery pipeline, bridging the gap between Figma mockups and high-velocity production code with zero technical debt.
- Authored complete digital identities, multi-platform media assets, and automated generative AI pipelines, cutting client asset delivery turnaround by 60%.
- Conducted full SEO audits and technical performance refactoring, consistently raising client Lighthouse scores from <60 to >95.

Lead UI/UX Engineer & Digital Designer | D-Arrow Marketing & Investment

2024 – 2026

Platform Architecture & Enterprise Identity

- Architected the complete company web platform and investor interface, handling both desktop and mobile user journeys seamlessly.
- Created 50+ custom UI components, data visualization charts, and dynamic price estimators with clean maintainable TypeScript code.
- Designed and executed full marketing campaigns and social media identity guidelines adhering to strict brand consistency.

Senior Visual Designer & Multimedia Specialist | Freelance & Contract

2019 – 2022

Brand Identity & Digital Advertising Campaigns

- Executed over 100+ commercial advertising posters, packaging systems, and digital marketing creatives for commercial brands (Falez, Seropipe, Souqoom, Romwear, Kalista).
- Delivered high-converting visual assets for fashion, e-commerce, and SaaS product launches.

METHODOLOGY & DESIGN-TO-CODE WORKFLOW

1. Tokenized Design in Figma:

Establishing modular spacing, semantic color variables, multi-lingual typographic scales, and state matrices.
2. Clean Component Architecture:

Building modular, accessible, and performant components in Next.js / Astro with strict TypeScript interfaces.
3. Edge Optimization & SEO:

Implementing zero-overhead asset delivery, pre-rendered static routes, dynamic meta tags, and structured JSON-LD schemas.
4. Automated AI Augmentation:

Integrating AI tools for instant visual variation, localized audio synthesis, and automated asset scaling.

SELECTED BRAND ROSTER

- D-Arrow (Marketing & Investment)
- Mathwaa (Saudi Association)
- Emirates Real Estate (UAE)
- Arkan (Contracting & Real Estate)
- Al-Awsat News (Digital Media)
- Souqoom (E-Commerce Platform)
- Kalista & Romwear (Apparel)
- Seropipe & Falez (FMCG Brands)

KEY DIFFERENTIATORS

- ✓ Zero Developer-Designer Gap:

Can write production code and design award-worthy interfaces without handoff loss.
- ✓ Bilingual RTL Native:

Deep understanding of Arabic typographic hierarchy, line-heights, and responsive bidirectional UI.
- ✓ Speed & Reliability:

Relentless focus on Lighthouse 95+, sub-second edge delivery, and modern build tooling.

EDUCATION & CREDENTIALS

- Bachelor's Degree in Relevant Discipline (Egypt)
- Continuous Professional Learning: Advanced Next.js, Modern CSS Architecture, Generative AI Engineering & Diffusion Models.
